The History of the Bible in English

The Bible, Old and New Testaments, was originally written in Hebrew, Aramaic and Greek. So, if we now have the Bible in the English language that means it's been translated.

How did the English Bible we read today get here?

Who translated it and when?

How can I trust the translation to be accurate?

These and many other questions are answered through our "History of the Bible in English" program. Let us take your residents on a enjoyable journey through centuries of Bible translation and Christian history. They will even see ancient manuscripts up close and personal.

If you senior community is located in Pima County, call us 520-906-5842 to schedule a presentation
